SQL LAB SUBMISSION INSTRUCTIONS

1. All SQL lab assignments must be submitted using a public GitHub repository.

2. The repository should be organized lab-wise. Each lab must have a separate folder such as Lab-1, Lab-2, and so on.

3. For each lab, all SQL queries must be written in a single .sql file.

4. SQL queries are written manually.

5. Each lab folder contains the following files:
 - Questions file (questions.pdf or questions.txt)
 - SQL solution file (labX_solution.sql)
 - README.md file

Declaration:
I declare that the submitted SQL work is written by me and follows the above instructions.
